

Job Specification

For: Diagnostic Technician

Ref: VR/01230

Job Description

Kia - Car Workshop

Full time

Permanent

Location: Brentford, Middlesex

Hours: Monday to Friday 08:00 to 17:30, alternate Saturday 08:00 to 12:30

Salary: Basic upwards of £31,000 per annum plus bonus

What you will be doing:

As a Diagnostic Technician you will have the opportunity to put your technical expertise to use, solving complex technical issues, whilst gaining new skills and methods of working.

- Conduct visual health checks (VHC's), and carry out detailed diagnostics, inspections, repairs, and services, including the understanding of the techniques required for HV vehicles
- Have a clear understanding of the warranty process, to complete diagnostic reports
- Report and record work done and tests carried out and immediately report any further works required or vehicle faults.
- Completing road tests and signing off all the necessary warranty repairs.
- Liaise with customers on technical/product matters
- Keep up-to-date with the most recent changes in technology, techniques and in the commercial developments

What we need from you:

- A full UK driving licence is essential
- Qualified to NVQ Level 3 or equivalent, must include HV qualification
