

Job Specification

For: Road Rail Plant Operator

Ref: VR/01243

Job Description

From £33,000 to £39,500 per annum - Initial starting salary of £33,000,

The role of the Road Rail Plant Operator is to deliver and or operate the equipment anywhere on the UK rail infrastructure, the fleet consists of Mobile Elevated Work Platforms (MEWP), Lorry Loaders and a range of attachments. Shifts can involve working days or nights and weekend working.

Due to the nature of the industry a full medical and D & A testing will be undertaken, full training will be provided however a minimum of HGV class 2 is required to apply. Applications welcomed from service leavers or ex HM Forces.

Excellent package offered, overtime available.

Depot based in Derbyshire, however open to applications from any across the UK.
