

## Job Specification

**For: Geospatial Engineering Survey Trainer**

Ref: VR/01415

### Job Description

---

Are you ready to take your surveying career in a new direction? Are you interested in moving into Teaching?

This is a rare opportunity for an experienced Land / Geospatial Engineering Surveyor to step into a rewarding training role at the prestigious Royal School of Military Engineering in Chatham, Kent. Join a motivated team delivering high-quality training to Royal Engineer military students and help shape the next generation of Engineering Surveyors.

The company have a long and very successful partnership contract based at the Royal School of Military Engineering, Brompton Barracks. We are passionate about the success we deliver for our learners, our partners, and local communities, empowering our people to be ambitious, solution-focused, proactive, and creative thinkers. Our values, commitment to learner success, investment in people, collaboration through partnership to achieve shared goals, innovation to prepare for tomorrow, and courage to embrace opportunities, guide everything we do. Together, they support our vision: to become the UK's premier skills development partner, harnessing innovative solutions to equip our clients for the future.

### The Role

- Deliver CICES-accredited engineering surveying courses
- Provide instruction using Trimble hardware and software
- Support and mentor adult learners at all career stages
- Complete a funded teaching qualification within your first three years

### About You

- Strong background in geospatial / land surveying
- Confident with Trimble or related technology
- Solid grasp of core surveying principles
- Passionate about developing others
- Teaching experience (formal or informal) desirable

### Benefits

- Salary - £44,760 - £47,893
- Relocation support (negotiable)
- 6 weeks' holiday + bank holidays
- Generous pension scheme
- Funded CPD and professional development
- Private healthcare & wellbeing support
- 37-hour week, Monday–Friday
- Lifestyle benefits including cycle to work & on-site gym

Candidates need skills in one or more of the following topics, with the expectation to be upskilled in the other areas over time:

- Land Surveying (Topographic)

Job Specification provided by:
