

Job Specification

For: Mobile Gas Engineer

Ref: VR/01421

Job Description

There's an opportunity for you here as a Mobile Gas Engineer to join our mobile team. The role will be supporting a large mobile portfolio across the Hertfordshire, North London and Eastern regions.

The Role

- Carry out scheduled PPM on commercial gas systems, including boilers, heaters, pipework, and associated plant, ensuring compliance with current gas safety regulations.
- Respond promptly to breakdowns, leaks, and heating or hot water faults, diagnosing and repairing issues efficiently to minimise downtime and disruption to client operations.
- Assist in scoping and costing additional works, estimating programme durations, and delivering minor works or project tasks. Ensure all work is completed safely, professionally, and efficiently to maintain quality standards and support profitable performance.
- Conduct safety checks, tightness testing, and combustion performance analysis across a range of gas appliances and systems, ensuring full compliance with manufacturer and industry standards.
- Install, test, and commission new gas appliances, pipework, and equipment, including boosters and commercial heating plant.
- Maintain accurate service records, digital reports, and gas safety documentation via tablet or smartphone, ensuring all work aligns with Gas Safe and LCL/ACS certification requirements and recorded on our in-house CAFM system.
- Complete all maintenance and repair activities in line with Service Level Agreements (SLAs) and company performance targets.
- Follow all company and statutory health, safety, and environmental procedures. Carry out point of work risk assessments and always work safely, particularly when dealing with live gas systems.
- Build and maintain strong relationships with clients through professional communication, clear reporting, and proactive advice on system improvements and energy efficiency.
- Participate in the on-call rota, providing emergency response and support outside of core hours as required.

Hours of Work

- Monday – Friday 8am-5pm

Benefits

- Van will be provided
- Additional earnings available through overtime - if wanted

Job Specification provided by:

Sappers Network
RHQ RE, Ravelin Building
Brompton Barracks
